Committee Charge & Connection to the Integrated Plan

The Public Awareness and Community Engagement (PACE) Committee is responsible for recruiting, retaining, mentoring, and orienting members of the Connecticut HIV Prevention Coalition (CHPC). The committee also coordinates marketing initiatives, public awareness campaigns, and health communication strategies. Its primary focus is on developing strategies that support populations living with or at the highest risk of HIV in Connecticut.

PACE activities relate directly to the Integrated Plan goals and objectives, particularly those focused on community engagement, reducing stigma, and ensuring people living with and affected by HIV have a voice in planning and implementing strategies.
